

Your Gateway to Clinical Excellence

**Clinical
Connection**
AlignRx

Clinical Connection is empowering community pharmacies with efficient clinical program management within a patient-centric environment.

This one-stop data shop pulls information from various sources and offers a prioritized view of clinical opportunities that include adherence-related interventions, gaps in therapy closures, and medication therapy management (MTM) cases.

Efficient Data Management

Navigate and manage clinical opportunities with ease.

- Clinical Connection's intuitive dashboard lets you view and sort patient data based on number of opportunities, opportunity categories and types, payors, and more.
- Multi-pharmacy owners benefit from a consolidated view across all pharmacies in their group, making it easy to compare performance metrics and streamline strategies across pharmacy locations.

Targeted Patient Engagement

Pinpoint opportunities for patient engagement.

- Clinical Connection allows you to easily identify patients at risk for non-adherence so you can implement targeted interventions to enhance medication management.
- Comprehensive data enables you to develop proactive strategies for increasing adherence, accelerating inventory turns, growing revenue, and improving patient outcomes.

Seamless Clinical Performance Tracking

Unlock the potential to elevate your clinical practice with the Performance tab.

- Clinical Connection's EQUIPP and MTM pages allow you to gain valuable insight into medication management, explore revenue opportunities, and refine your approach to patient care.
- Critical performance metrics, such as medication adherence rates and statin gap closures, are at your fingertips. The platform's functionality lets you work onscreen or export data to Excel for further analysis.

Streamlined Communication

Stay organized with a dedicated clinical inbox.

- Messages related to patient care, payor programs, and clinical services are housed in one convenient location.

ARX
AlignRx

Clinical Services Built to Optimize Performance

As pharmacy practice continues to evolve and clinical revenue streams expand, AlignRx is committed to helping pharmacies—and the patients they serve—thrive. Our dedicated Clinical Services team partners with you to identify untapped revenue opportunities, optimize daily workflows, and equip your staff with the tools and support needed to practice at the top of their license.

Through data-driven insights, guided support, and evidence-based strategies, we help transform your pharmacy from a traditional dispensing model into a provider of advanced clinical services that enhance patient care and improve health outcomes.

Clinical Performance & Opportunity Reviews

Identify payor programs available to your pharmacy and gain insight into those opportunities with the largest revenue potential. Plus, access customized live sessions with the Clinical Services team.

Live Training & Program Implementation Support

Experience real-time support from our subject-matter experts on payor performance programs in EQUIPP and Medication Therapy Management (MTM) programs, including Outcomes® MTM and Optum Rx® MedMonitor.

Clinical Connection Office Hours

Participate in live monthly sessions hosted by the Clinical Services team. Connect with peers and discover best practices, program updates, and new revenue opportunities.
